PRODUCT OVERVIEW

IRRIVA drip tape systems are engineered for uniform waterdistribution, long-term durability and ease of installation.A full range of options ensures the right solution forevery application.

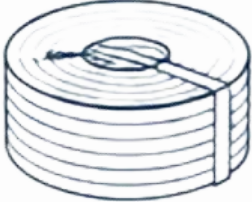

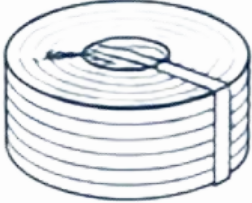

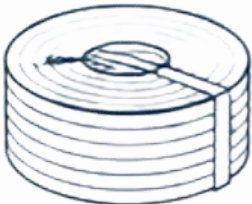

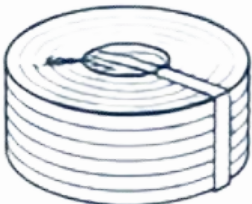

UNIFORM
WATER DISTRIBUTION

LEAK-FREE
CONNECTIONS

RELIABLE FIELD
CONNECTIONS

PRODUCT	APPLICATION	KEY BENEFITS	AVAILABLE SIZES
 STANDARD FLOW DRIP TAPE Reliable choice for generalirrigation across a widerange of crops.	 Vegetables, Field Crops, Open Field	• Uniform water distribution • Cost-effective solution • Easy to install	 Diameter 16 mm (5/8")  Flow Rate 0.75 L/h  Emitter Spacing 30 cm (12")
 HIGH FLOW DRIP TAPE Higher flow rate for soilswith higher infiltrationor longer laterals.	 Field Crops, Row Crops, Orchards	• Higher flow output· • Excellent for longer runs • Maintains uniformity	 Diameter 16 mm (5/8")  Flow Rate 1.0 L/h  Emitter Spacing 30 cm (12")
 DENSE PLANTING DRIP TAPE Closer emitter spacingfor uniform moisture inintensive planting.	 Greenhouse, Nurseries, Vegetables	• Closer emitter spacing • Ideal for dense crops • Promotes uniform growth	 Diameter 16 mm (5/8")  Flow Rate 1.0 L/h  Emitter Spacing 20 cm (8")
 REINFORCED DRIP TAPE Thicker wall design forhigher pressure andrough terrain.	 Greenhouse, Nurseries, Vegetables	• Thicker wall for durability • Higher pressure resistance • Long service life	 Diameter 16 mm (5/8")  Wall Thickness 10 -12 mil (0.25 - 0.30 mm)  Emitter Spacing 30 cm (12")  Flow Rate 1.0 L/h

TECHNICAL RANGE

 Diameters 12, 16, 20, 22 mm	 DiameWall Thickness 6-12 mil (0.15 - 0.30 mm)	 Flow Rates 0.35-4.0 L/H	 Emitter Spacing 10-60cm	 Operating Pressure 0.7-1.2bar (10-17PSI)	 Recommended Filtration 120 mesh

Installation

Built for
Long Service Life

DRIP TAPE FITTINGS

Designed for quick, secure and leak-free connections

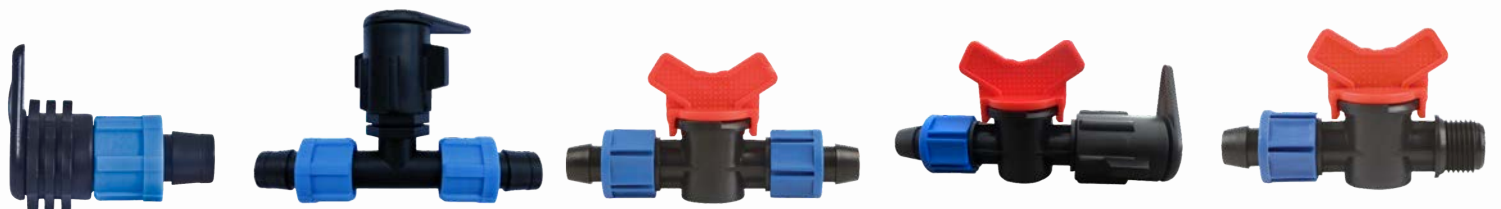

- Start Connectors
- Take-off Connectors
- End Caps
- Repair Couplings
- Lock Nuts

MICRO TUBE & HOSE FITTINGS

Reliable fittings for 3-20 mm PE micro tubes and hoses.

- Barbed Connectors
- Elbows & Tees
- Couplings
- Plugs

MAIN LINE FITTINGS

Strong and durable fittings for PE main pipes and hoses.

- Compression
- Couplings
- Elbows & Tees
- Reducing Connectors
- End Caps

FILTRATION SOLUTIONS

Protect your system. Ensure consistent performance.

- Disc Filters (Y-Type)
- Disc Filters (Angle-Type)
- Screen Filters (Y-Type)
- Screen Filters (T-Type)

Applications

WHY IRRIVA?

BUILT FOR UK GROWERS

Solutions designed for UK conditions and commercial production.

COMPLETE SYSTEM SOLUTIONS

From drip tape to filtration, we provide everything you need for a reliable irrigation system.

QUALITY YOU CAN TRUST

High-quality materials and strict quality control ensure long-lasting performance.

RELIABLE SUPPLY

Stable stock, fast delivery and flexible solutions to keep your projects moving.

EXPERT SUPPORT

Our experienced team is here to support you at every stage.

At IRRIVA, we are committed to delivering high-performance irrigation solutions that help growers reduce water use, increase yields and build a more sustainable future. Let's grow better, together.
